Video or Animation Creation

Video or animation services will be calculated by the hour starting at a 25 hr bundle. Additional hours can be used for content management.

*Extensions in 5 hour increments can be added on after your initial purchase of any of the bundles listed if you need more hours.

A single hour can be purchased for \$100. The more hours you buy, the more you save!

Since every request varies, the hours spent working on designs may also vary. This guide is a tool to help determine which bundle is best for you. If you would like to speak to a designer about your request, please reach out to design@howardcompany.com.
